## Environmental Management System Policy

### (SFI 2010-2014) – Woodlands Operations

We are committed to responsible stewardship of the forest and the environment throughout our operations.

In conducting our business, we are committed to:

- Practice Sustainable Forestry which retains natural forest productivity and health;
- Protect the water resources, biological diversity, special sites, and aesthetic values of the areas harvested by MDFP;
- Maintain our infrastructure of roads, and as required by Alberta permit or limit access to the forest by other industrial users and the public for recreational opportunities;
- Meet or exceed all applicable environmental and social laws, regulations, policies, and other pertinent requirements;
- Complying with the Canadian Charter of Rights and Freedoms, Alberta Employment Standards Act and the Core Conventions of the International Labour Organization
- Minimize adverse environmental impacts and strive to prevent pollution;
- Promote Sustainable Forest Management awareness throughout MDFP's operations;
- Monitor MDFP's Sustainable Forest Management performance by regularly reviewing MDFP's activities, practices, performance measures, and indicators;
- Provide training for MDFP's employees and contractors in environmentally responsible work practices;
- Broaden the practice of Sustainable Forestry on public lands through community involvement.
- Support advances in Sustainable Forest Management through forestry research, science and technology; and
- Continually improve the practice of Sustainable Forest Management and monitor, measure, and report our performance publicly.
